a faithful reproduction of the factory workshop manual originally published by floyd clymer in 1967 this fully illustrated manual covers the 160cc 250cc and 350cc narrow case single cylinder ohc series of ducati motorcycles including the 160 monza junior 250 monza 250gt 250 mark 3 250 mach1 250 motocross and the 350 sebring as expected from a factory publication this manual includes complete technical data and comprehensive detailed instructions for the repair and overhaul of all major and minor mechanical and electrical components making it an invaluable resource for collectors and restorers of these classic ducati motorcycles it contains a comprehensive technical specification section for every variant by year for each model followed by a descriptive section of all major components includes detailed repair and rebuild data for the engine clutch transmission ducati and marzocchi forks rear suspension wheels brakes and more it also includes comprehensive information on the electrical and ignition equipment plus wiring diagrams there is adequate detailed text and illustrations to assist in major refurbishing such as an engine rebuild or even a complete mechanical renovation an essential addition to any ducati motor cycle enthusiast s library this book has been out of print and unavailable for many years and is becoming increasingly more difficult to find on the secondary market this is a must have reference for this series of ducati motorcycles and we are pleased to be able to offer this reproduction as a service to all ducati enthusiasts worldwide

126 pages and profusely illustrated with more than 260 illustrations diagrams and charts size 8 250 x 10 750 inches originally published by floyd clymer in 1969 with coverage for the 1969 and earlier 4 speed and 5 speed 250cc and 360cc models while this 2025 edition includes all of the data from the original publication it has also been expanded to include data for the 125cc and 380cc engines which extends the coverage through 1974 cz motorcycles of this era were identified by a three digit type number occasionally followed by a numerical suffix for example type 984 9 the suffix number identifies model variations and or year of manufacture within each type group unfortunately the use of the type number is extremely model specific and in order to eliminate any confusion the data included in this manual is appropriate for the single exhaust pipe 4 speed and 5 speed cz motocross enduro and ruff country models however for the sake of completeness the manual states that coverage includes the following model types type 984 125cc motocross type 968 250cc motocross single pipe type 980 250cc motocross type 988 250cc enduro type 969 360cc motocross single pipe type 981 380cc motocross from 1964 to 1966 the type 968 and type 969 were available with twin pipe engines they are not covered in this manual however as many of the other mechanical components are shared with the single pipe machines this manual will also be of use to owners of those twin pipe models we encourage you

to exercise caution when purchasing technical publications for your classic motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling many are nothing more than poor quality digital comb bound or ring bound photocopies that are scanned or printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished in addition they are often advertised for the incorrect series and or model years however velocepress com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product

140 pages and more than 140 illustrations and charts size 8 25 x 10 75 inches the original norton factory twin cylinder workshop manual contained maintenance and repair data for both the lightweight and heavyweight norton twins manufactured between 1960 and 1968 including the 750cc atlas model which was in production from 1962 1968 as many of the mechanical attributes from the atlas series were carried over into the early norton commando models we felt that the original twin cylinder manual was somewhat lacking as it did not include repair data for the early commando that evolved from the atlas consequently we have updated and expanded this floyd clymer edition of the original twin cylinder manual to include the oem norton manual part no 06 3062 for the 1968 1970 commando 750cc models that were fitted with the atlas style exhaust and external rev counter drive to the timing cover beginning with engine no 126125 february 1968 and the early camshaft driven contact breaker models from engine no 131257 march 1969 while there is some duplication between the atlas and commando repair information we felt that the commando manual should be included in its entirety in order to complete the coverage of the original twin cylinder manual from 1960 through the 1970 model year it should also be noted that this manual includes significant maintenance and repair information for the amc norton matchless g15 hybrids that were manufactured from 1963 1967 engine numbers 107388 to 124371 important note many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling many are nothing more than poor quality comb bound photocopies that are scanned and published complete with greasy pages and thumbprints and as such are deceptively described as pre owned in addition they are often advertised for the incorrect series and or model years of motorcycles however velocepress com has been publishing licensed reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product we are pleased to offer this combined reprint of the factory twin cylinder and commando 06 3062 workshop manuals models covered are lightweight models jubilee 250cc 1960 1966 navigator 350cc 1961 1965 electra 400cc 1963 1965 heavyweight models model 88 500cc 1960 1966 model 99 600cc 1960 1962 650ss 650cc 1962 1968 atlas 750cc 1962 1968 g15 750cc 1963 1967 amc norton matchless hybrid commando 750cc 1968 1970 models only important please note that the 750cc commando manual is only applicable to the 1968 1970 models owners of later commando models are directed to our 1970 1975 manual isbn 9781588502438 and mkiii owners to our 1975 1978 manual isbn 9781588502445

a faithful reproduction of the 1970 floyd clymer publication of the official factory suzuki workshop manual for the t20 and t200 series of motorcycles including the 250cc super six and x6 hustler and the 200cc x5 invader and sting ray scrambler there are comprehensive tables of technical data

tolerances and fits and all of the expected data from a factory publication for the repair and overhaul of all major and minor mechanical and electrical components making it an invaluable resource for collectors and restorers of these classic suzuki motorcycles there are 177 illustrations and each procedure is explained in a step by step method using an appropriate illustration the translation from japanese to english is at times a little quirky but the illustrations make up for any difficulty in understanding what needs to be done out of print and unavailable for many years this book is highly sought after on the secondary market and we are pleased to be able to offer this reproduction as a service to all suzuki enthusiasts worldwide

128 pages and more than 150 illustrations and charts size 8 25 x 10 75 inches this manual is a compilation of 3 publications 1 a workshop manual for the penton 175cc jackpiner the 250cc hare scrambler and the 400cc mint models 2 an illustrated frame and chassis parts manual and 3 an illustrated 175 250 400cc ktm engine parts manual this publication is also appropriate for the ktm mc motocross and gs gelande sport machines that utilize these same engines a brief explanation of the association between penton and ktm in 1967 when john penton approached ktm austria with a plan to manufacture off road motorcycles to his design it was obviously seen as an opportunity by ktm to gain a foothold in the expanding usa off road motorcycle market certainly having someone like john penton representing their product was a major win for ktm as john s prominent status in off road racing was already well established the first of the penton ktm joint venture motorcycles the berkshire 100 and six day 125 models powered by sach's engines arrived in the usa in 1968 the use of a sach's powertrain was an obvious choice for ktm who without any in house engine capability had been using sach's engines in their moped scooter and road going motorcycles since the early 1950 s while the sach's powered off road machines established a solid foothold for penton motorcycles john began to pressure ktm to construct an engine of their own design the first of the penton models powered by ktm engines debuted in 1972 as the 175cc jackpiner followed in 1973 by the 250cc hare and the 400cc mint in 1974 see workshop manual isbn 9781588502933 for sach's powered pentons however ktm was also marketing identical ktm badged bikes as mc motocross and gs gelande sport models on an international level obviously this did not sit well with john and the situation worsened when those same ktm badged bikes began to show up on the west coast through a different usa importer the 1976 mc 5 and cross country and the 1977 gs 6 pentons were also badged and sold as ktm s and the association between john and ktm continued to deteriorate in the interim ktm had been pressuring john to relinquish control of his distribution rights and in 1978 ktm purchased both the distribution rights and the company infrastructure and the penton brand was no more a sad end to an era of great innovation by john penton however his motorcycles and the identical ktm versions are regarded as some of the best ever to come out of the 1970 s off road motorcycle phenomenon and are highly collectible and still used in vintage events by enthusiasts worldwide unfortunately owners of these early penton motorcycles are subjected to considerable confusion surrounding the appropriate selection of the multitude of originals and reprints of the various manuals and parts lists that have recently flooded the marketplace we encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that have no idea what they are selling many are nothing more than poor quality comb bound or ring bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished in addition they are often advertised for the incorrect series and or model years

122 pages and more than 250 illustrations and charts size 8 25 x 10 75 inches this workshop manual is a faithful reproduction of the original yamaha factory combined workshop manual part number lit 11612 14 99 for the dti series of motorcycles manufactured between 1968 and 1971 based on our research yamaha published at least 7 service manuals and 3 supplements for the 1968 1971 dt1 series however the revised combined workshop manual lit 11612 14 99 is considered to be the most comprehensive as it was published after the introduction of the 1971 models and it includes the mx series and gyt modifications for racing it should be noted that the side by side landscape pages beginning with the dt1a 1968 model changes section have been re formatted into single pages for improved readability in addition the motorcycle service news page that deals with the installation of the lighting choke coil has been omitted as there were no legible versions published in any of the dt1 series of workshop manuals however the installation of the choke coil is addressed in both the wiring diagrams and the dt1a to dt1b changes sections of the combined manual we encourage you to exercise caution when purchasing technical publications for your classic yamaha dt series motorcycle as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished in addition they are often advertised for the incorrect series and or model years while original manuals can also be sourced through on line sellers they are normally very expensive and we are pleased to be able to offer this reasonable priced alternative velocepress com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product

158 pages and profusely illustrated with more than 300 illustrations diagrams and charts size 8 250 x 10 750 inches originally published by floyd clymer in 1969 with coverage for the 250 360 and 400cc single cylinder motocross enduro and sportsman models from 1965 through the 1969 mg series however as both the 250cc and 400cc models remained in production through 1975 as the mh 1970 mi 1971 mj 1972 and mk 1973 1975 series the original clymer manual provided coverage beyond its publication date and effectively included those models from 1965 through 1975 while this 2025 edition includes all of the data from the original publication it has also been expanded to include the 1972 and later 125cc and 450cc mj and mk series models covered by engine size year of manufacture are 125 cc 1972 1974 250 cc 1965 1975 360 cc 1966 1971 400 cc 1969 1975 450 cc 1972 1974 we encourage you to exercise caution when purchasing technical publications for your classic motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling many are nothing more than poor quality digital or comb bound photocopies that are scanned or printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished in addition they are often advertised for the incorrect series and or model years however velocepress com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product

122 pages and profusely illustrated with more than 200 illustrations diagrams and charts size 8 250 x 10 750 inches this manual covers all 1968 to 1978

piston port motocross enduro and gelande sport gs models originally published by floyd clymer in 1969 with coverage for the 1969 and earlier 250cc and 360cc models while this 2025 edition includes all of the information from the original publication it has been expanded to include data for the 1970 and later 400cc 450cc and 501cc machines it also includes an additional 10 page appendix for the 1973 and onwards piston port models which extends the coverage through 1975 and for some models through 1978 in addition it includes the competition preparation chapter that was omitted from the later publications of the clymer manual the additional 10 page appendix for the 1973 and later 250cc 400cc 440cc and 501cc models includes exploded parts drawings with appropriate component lists for the engine front forks swing arm and rear suspension front hub and brake and rear hub and brake it also includes a detailed specification listing plus wiring diagrams for machines both with and without lights as these machines were designed for competition use continuous modifications and improvements without regard to the model year were made by the factory in order to keep the motorcycles competitive consequently the owner should be aware that the year of production is not a specific identifier for a particular specification however as most of the modifications relate to internal dimensional changes they do not detract from the intent of this workshop manual velocepress com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product we encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling many are nothing more than poor quality comb bound or ring bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished in addition they are often advertised for the incorrect series and or model years with more than 250 titles in print velocepress is one of the fastest growing specialty automobile and motorcycle publishing companies in the usa please visit our website at velocepress.com for more information on our company and our books

196 pages and profusely illustrated with more than 480 illustrations diagrams and charts size 8 250 x 10 750 inches originally published by floyd clymer in 1969 shortly after the introduction of the 500cc h1 mach iii this manual has been updated to include the entire 1968 to 1980 series of kawasaki triple cylinder 250cc 350cc 400cc 500cc and 750cc machines it also includes appropriate data for the uk and european models models covered by year of introduction are as follows h1 500cc 1968 71 h1a 500cc 1971 72 s1 250cc 1972 73 s2 350cc 1972 73 h1b 500cc 1972 73 h1c 500cc 1972 73 h2 750cc 1972 73 s1a 250cc 1973 74 s2a 350cc 1973 74 s1b 250cc 1974 76 s3 400cc 1974 76 h1e 500cc 1974 76 h2c 750cc 1974 76 kh500 500cc 1976 77 kh250 250cc 1976 80 kh400 400cc 1976 80 as this manual covers all sixteen variants of eight different kawasaki models the reader is encouraged to review each section in its entirety prior to commencing any repairs or adjustments in order to ensure they select the data that is appropriate for the specific model under repair velocepress com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product we encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling many are nothing more than poor quality comb bound or ring bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished in addition they are often

advertised for the incorrect series and or model years with more than 250 titles in print velocepress is one of the fastest growing specialty automobile and motorcycle publishing companies in the usa please visit our website at velocepress com for more information on our company and our books

162 pages and profusely illustrated with more than 230 illustrations diagrams and charts size 8 250 x 10 750 inches originally published by floyd clymer in 1969 shortly after the introduction of the 175cc stiletto and the 250cc pioneer models this manual has been updated to provide maintenance and repair data for the 5 speed 1971 onwards series of 175cc and 250cc explorer phantom pioneer plonker stiletto and super pioneer models this manual also includes a supplement for the 1977 1978 250cc six day gpiii super pioneer and the 310cc mountaineer and blt plonker models which utilize the 250cc engine bored and stroked to obtain 310cc in addition while the focus of this manual is on the 175cc and 250cc powered bikes it can also be used as a guide for any of the 125cc models as engine servicing and overhaul procedures are identical please note that data for the earlier 4 speed transmission is no longer included velocepress com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product we encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling many are nothing more than poor quality comb bound or ring bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished in addition they are often advertised for the incorrect series and or model years with more than 250 titles in print velocepress is one of the fastest growing specialty automobile and motorcycle publishing companies in the usa please visit our website at velocepress com for more information on our company and our books

108 pages and more than 120 illustrations and charts size 8 25 x 10 75 inches this manual covers the overhaul and maintenance of the engines that were installed in the 1972 to 1978 penton ktm series of off road motorcycles in addition it also includes an illustrated parts manual for those same engines from 1972 onwards the majority of penton motorcycles utilized ktm engines the most recognizable early penton ktm machines were the 175cc jackpiner the 250cc hare scrambler and the 400cc mint in 1976 the penton ktm mc 5 and cross country models were introduced followed by the gs 6 in 1977 all available with 125cc 175cc 250cc and 400cc engine options this manual is a compilation of the april 1979 ktm engine repair instructions and the may 1977 parts manual it should be noted that ktm identifies their 1972 to 1979 series of engines by type numbers and the engines covered in this manual are the 125cc type 51 1975 1976 175cc type 52 1972 1979 250cc type 54 1973 1979 and 400cc type 55 1974 1978 a brief explanation of the association between penton and ktm in 1967 when john penton approached ktm austria with a plan to manufacture off road motorcycles to his design it was obviously seen as an opportunity by ktm to gain a foothold in the expanding usa off road motorcycle market certainly having someone like john penton representing their product was a major win for ktm as john s prominent status in off road racing was already well established the first of the penton ktm joint venture motorcycles the berkshire 100 and six day 125 models powered by sach's engines arrived in the usa in 1968 the use of a sach's powertrain was an obvious choice for ktm who without any in house engine capability had been using sach's engines in their moped scooter and road going motorcycles since the

early 1950s while the Sachs powered off road machines established a solid foothold for Penton motorcycles John began to pressure KTM to construct an engine of their own design the first of the Penton models powered by KTM engines debuted in 1972 as the 175cc Jackpiner followed in 1973 by the 250cc Hare and the 400cc Mint in 1974 these Penton KTM powered models are covered in Workshop Manual ISBN 9781588503077 for Sachs powered Pentons see Workshop Manual ISBN 9781588502933 however KTM was also marketing identical KTM badged bikes as MC Motocross and GS Gelände Sport models on an international level obviously this did not sit well with John and the situation worsened when those same KTM badged bikes began to show up on the west coast through a different USA importer the 1976 MC 5 and Cross Country and the 1977 GS 6 Pentons were also badged and sold as KTM S and the association between John and KTM continued to deteriorate in the interim KTM had been pressuring John to relinquish control of his distribution rights and in 1978 KTM purchased both the distribution rights and the company infrastructure and the Penton brand was no more a sad end to an era of great innovation by John Penton however his motorcycles and the identical KTM versions are regarded as some of the best ever to come out of the 1970s off road motorcycle phenomenon and are highly collectible and still used in vintage events by enthusiasts worldwide

1935 to 1939 models an illustrated workshop manual covering pre war Triumph twin and single cylinder motorcycles from 1935 to 1939 after the outbreak of war in September 1939 all of the Triumph motorcycles constructed were destined for military use civilian production did not resume again until 1946 this is a faithful reproduction of the 1939 Floyd Clymer E T Brown Workshop Manual originally published in the US in 1947 it includes repair and maintenance data for rigid frame pre war single cylinder SV OHV and twin cylinder OHV Triumph motorcycles from 1935 to 1939 much more detailed than the Owner's Handbook this manual provides the information necessary for the overhaul of engines carburetors clutches gear boxes forks electrics etc essential information for the enthusiast owner or restorer of these classic motorcycles measuring 5.5 x 8.5 with 96 pages and 56 illustrations applicable to the following models I2 1 2 1 2 5 3 1 3 2 3 5 5 1 5 2 5 3 5 4 5 5 5 10 6 1 Tiger 70 Tiger 80 Tiger 90 2h Tiger 70c 3s 3h Tiger 80c 5h Tiger 90c 6s 2hc 3sc 5t Speed Twin 5s and T100 Tiger 100 includes maintenance and repair data for the following engines single cylinder 250cc OHV 350cc SV 350cc OHV 500cc SV 500cc OHV 550cc SV and 600cc SV twin cylinder 500cc OHV and 650cc OHV

170 pages and more than 450 illustrations and charts size 8.25 x 10.75 inches this workshop manual is a compilation of 4 original Honda publications it includes a reproduction of the original 250cc and 360cc twin cylinder 1974 factory workshop manual for both the disc brake and drum brake models plus 3 factory supplements that cover both the 5 and 6 speed variants which extends the coverage of the original manual through 1977 the models covered are CB250 CJ250T CB360 CL360 CB360T and CJ360T many of the earlier Honda motorcycle models were often introduced at different times and in different countries using different model names or designations for example the CB 250 was predominantly sold in the European market and not officially available in the USA however the 360cc models were available in both Europe and the USA unfortunately this often leads to difficulty in selecting the correct workshop manual and owners of this series of 250cc and 360cc twins are subjected to considerable confusion surrounding the appropriate selection from the multitude of OEM publications that have recently flooded the on line marketplace this confusion is compounded by the fact that Honda used both 5 and 6 speed transmissions within the 1974 to 1977 production run of the 250 360 series owners of the 1968 1973 twin cylinder 5 speed

250cc and 350cc models are directed to our honda factory workshop manual isbn 9781588502612 owners of the 1961 1968 twin cylinder 250cc and 305cc c72 c77 series will require our honda factory workshop manual isbn 9781588500731 finally please note that the text in the original honda factory workshop manual was translated from japanese into english consequently some of the phrasing grammar punctuation and word usage may be subtly different from that commonly used in the english language however the information as presented is readily understandable in addition while we have done our best to identify any anomalies errors and incorrect spelling that may have occurred during the original translation process we are certain that we will have missed one or two and we request your indulgence in ignoring them
